

# American Road Patch™

## Peel & Seal Pavement Patch

### Remaining Strong Through Winter Conditions!

**Location:** Duluth Airport Authority Taxiway

**Problem:** Deterioration of filled potholes

**Solution:** American Road Patch™

Duluth Airport Authority is a hub for F16 fighter planes. The airport was continuously filling and refilling potholes due to consistent traffic loading and deterioration. In Fall 2019 the airport authority decided to try American Road Patch. The old fill was removed and replaced with American Road Patch.

To ensure that none of the aggregate surfaced, the patch was tamped to embed the waterproofing membrane into the pavement. After multiple snowfalls and plowing, the American Road Patch remains strong!

## PEEL & SEAL Pavement Patch

**American Road Patch™**

Seals, strengthens & contains repairs

(Fig.1) Patch after 2 feet of snow and plowing
