

Engineer's Letter of Concurrence

What are Engineer's Letter of Concurrence?

An Engineer's Letter of Concurrence is a signed, official document recommending the acceptance of a project, usually for a municipality. It can include a list of items to be corrected prior to project acceptance. It is a sealed letter by a professional engineer stating that the wall or other structures have been built per our plans.

What are the benefits of our Engineer's Letter of Concurrence Service?

Cities typically do not have enough inspectors to inspect every wall constructed within their jurisdiction, so our team can quickly assist with this piece for you. GeoSolutions' inspectors have the experience to make sure the construction is correct and per the plans and specifications.
